

## MORE SAVINGS WITH MM

Material Matters are continuing to increase their client base. They have conducted a number of different site audits recently and produced some exceptional results. Paul Mould, a Director of Material Matters Ltd, explains:

"All of our customers are genuinely amazed by our buying power and the fact that we are able to improve on prices in a very real manner. There is no cost for an audit and we are finding every golf facility can make some real savings. We will also advise clubs on their purchasing, even if there is nothing for us to gain in the short term, as we are committed to serving the best interests of golf operators for many years to come."

Ken Heathcote, General Manager at Studley Wood Golf Club said:

"We have been very happy with the quality of service that Material Matters have provided us. We feel that they work in complete partnership with us and take us hand in hand

through our purchasing. We have been amazed at the savings. We can see a positive long term relationship with Paul and his team."

Chris Lomas is Secretary at Worplesdon Golf Club in Surrey. He made the following observation:

"We have worked with Material Matters for all of our Clubhouse supplies for over a year now. Their buying power has helped us to make some great savings across the board. They work tirelessly for you behind the scenes, preparing and presenting quotes and are happy to take the often tedious paperwork off your hands. I look forward to continued savings in the next year with Material Matters, as we still have more avenues to explore."
