

Foremost Golf Teams up with Material Matters for the Benefit of its Golf Club Buying Group Members

Foremost Golf has appointed Material Matters as its procurement partner to manage the group's successful Golf Club Buying Group.

Working together Foremost Golf, the UK's largest retail group, and Material Matters, the country's premier procurement service provider to Golf Clubs, will provide an unrivalled range and quality of service to all of the Proprietary and Private Members Golf Clubs which are currently part of the Foremost Golf Club Buying Group.

These unique services will include Material Matters' own 'Contract Matters', an innovative system which provides the group's member clubs with a sophisticated central online facility to manage all business contracts and to ensure maximum cost savings across all areas of their businesses.

Paul Mould, Managing Director of Material Matters said: "I am excited by the new partnership with Foremost Golf and am confident that working together we can provide Clubs with improved buying power and an unparalleled range of products and services".

Foremost, which has around 1,000 PGA members within its retail group, remains committed to delivering support and assistance to Golf Clubs during a difficult trading period in which participation is down and pressures on membership and green fee revenues have increased.

Paul Hedges, CEO of Foremost Golf said: "I have been impressed with the quality and range of services provided by Material Matters and am confident that working together we can provide our existing Golf Club members with the help they need to cut costs and operate more efficiently.

"We genuinely believe member Clubs will benefit greatly as a result of this collaboration."

Golf Clubs interested in learning how they can cut costs and improve performance in all areas of their businesses should contact Material Matters 01252 621114, or email foremostclubs@materialmattersltd.com
